F E B R U A R Y R E C A P

**FREE EVENT - 6<sup>TH</sup> OF MARCH, 5.30PM!**

The Pathways to Motorsport: Breaking in and Staying in the Automotive Industry panel discussion is set to be an inspiring and empowering evening at Swansea University's Bay Campus. Hosted with Swansea Formula Student, the Women in Engineering Society, and the Mechanical Engineering Society, and sponsored by iMechE, Velvet Green, and Housr, this event celebrates International Women's Day by highlighting the journeys of professionals succeeding in motorsport and automotive industries.

Check @swanseaunracing on Instagram for more info & updates on the panellists!

## ROB WOODS TALK

We had the pleasure of attending a networking event and talk with the RAF Commander of Wales, Rob Woods. This gave some of the team the chance to not only hear firsthand experiences from working in the defence sector, but also to share some of the hard work Swansea Racing have been putting in.

Currently, Woods works closely with the Welsh government, local authorities, industry, and academia. One especially memorable moment for us is when he shared his childhood karting experiences and passions for motorsports with Swansea Racing. We had the opportunity to share some insight into our campaign, and discussed our plans for the upcoming competition at Silverstone.
